

Night work to install concrete footings and power cables in M8 on ramps, St Peters

The M4-M5 Link Tunnels will undertake work to construct concrete footings and install new traffic, communications and power devices and cables within the St Peters Interchange ramps near the Euston Road and Gardeners Road ramps to the M8 in St Peters.

What we're doing

The work is scheduled to occur over two (2) night shifts on Monday 22 November and Tuesday 23 November 2021, between 9:00pm and 5:00am.

Due to the high volume of traffic during the day, this work must be scheduled outside of standard construction hours to ensure the safety of pedestrians, motorists and workers.

The work will involve:

- setting up traffic management
- setting up a safe work area with site specific environmental controls
- scanning and potholing for services
- excavation, installation and concrete work as required
- reinstating the work area including covering or backfilling all excavations
- removing all traffic management and reopening all lanes.

Equipment required for this work includes, but is not limited to; excavators, vacuum trucks, compactors, vibrators, trucks, concrete pumps and agitators, traffic control (including traffic control vehicles) and other light vehicles, mobile cranes (franna), elevated work platforms and other required hand tools.

How this affects you

This work will at times be noisy. The Project is committed to mitigating construction impacts on surrounding residents by:

- scheduling noisier activities such as saw-cutting as early as possible
- consulting with directly impacted residents ahead of the work taking place

When

On Monday 22 November and Tuesday 23 November 2021

Hours of operation

9:00pm - 5:00am Monday and Tuesday

Where

St Peters Interchange on-ramps near the Gardeners Road Bridge, St Peters

For more information please call 1800 660 248 or email your enquiry to info@m4-m5linktunnels.com.au

Notification No. MT352

Constructed by

- using noise blankets and other barriers to reduce noise impacts where possible
- directing temporary lighting away from properties
- using non-tonal reversing beepers and instructing workers to keep noise to a minimum.

Traffic changes

Temporary changes to traffic routes around the work site will be required. One on-ramp to the M8 tunnel will be closed during the work. Traffic control and signage will be in place to assist motorists through these changes.

If you have an enquiry or complaint or you want to provide feedback about this update, please contact the M4-M5 Link Tunnels team toll free on 1800 660 248, email info@m4-m5linktunnels.com.au or write to PO Box 63, Mascot, NSW 1460.
