

### Concrete barrier paving on Campbell Road, St Peters

The M4-M5 Link Tunnels will start paving works to install concrete barriers in the centre median of Campbell Road, St Peters between Euston Road and Barwon Park Road, St Peters.

#### What we're doing

This is part of the same work from notification MT381 which included constructing a concrete pile and installing concrete barriers on Campbell Road, St Peters.

Due to the nature of this work, the size and shape of the equipment and materials being used for this work, the project can only carry out this work at night.

The work is scheduled to occur over two (2) night shifts from Wednesday 6 July to Friday 8 July 2022, between 9:00pm and 5:00am, weather and site permitting.

Work will involve paving sixty (60) metres of concrete road barriers in the centre median at this location.

Equipment required for this work includes, but is not limited to: concrete delivery trucks and pumps, concrete paving machine, generator, lighting tower, traffic control (including traffic control vehicles) and other light vehicles and powered hand tools.

#### How this affects you

This work will at times be noisy. The Project is committed to mitigating construction impacts on surrounding residents by:

- scheduling noisier activities as early as possible
- consulting with directly impacted residents ahead of the work taking place
- using noise blankets and other barriers to reduce noise impacts where possible
- directing temporary lighting away from properties
- using non-tonal reversing beepers and instructing workers to keep noise to a minimum.

#### Traffic changes

Temporary changes to traffic routes around the work site will be required. Traffic control and signage will be in place to assist motorists, pedestrians and cyclists through these changes.

#### When

From Wednesday 6 July to Friday 8 July 2022

#### Hours of operation

Between 9:00pm and 5:00am

#### Where

Campbell Road between Euston Road and Barwon Park Road, St Peters
