

Monday 7 September to Saturday 12 September

Good morning

Below is a summary of Rozelle Interchange construction work taking place at Iron Cove next week. Residents impacted by our work on local streets will be provided a more detailed update in the coming days.

### Traffic changes on local streets

- We'll begin trenching on McCleer Street next week to create new private sewer connections as part of the Balmain sewer relocation.

Trenching will start on McCleer Street between Callan and Springside streets, moving progressively towards Moodie Street. This work is expected to take up to three weeks to complete, weather and site conditions permitting.

**During this time, residents of Springside Street will access their street as follows:**

- Residents of 2 - 18 Springside Street will access via Victoria Road
  - Residents of 19 - 60 Springside Street will access via Callan Street and Manning Street
- On Monday (7 September) and Tuesday (8 September) next week, traffic control will be in place on Callan Street to assist motorists while Ausgrid equipment is delivered to Manning Street. Please allow for extra travel time when driving on Callan Street.

- Next week we'll continue trenching for the new sewer line on Yara Avenue. This work requires Yara Avenue to be closed to non-residents. Resident access to all buildings will be maintained (please display your Resident Access Card for efficient access to Yara Avenue).

### Inside our sites

Tomorrow we'll pour approximately 360 cubic metres of concrete into the steel frame work to create 13 beams (circled in **blue** below), which will support the roof of the tunnel portal, and will eventually support the new traffic lanes (for vehicles heading towards Drummoyne) on Victoria Road.

The steel is combined with concrete to make supporting beams weighing 1000 tonnes.

Set up for this work will begin at 6am tomorrow (Thursday 3 September), with concrete pour beginning at 7am. This work is scheduled to be completed by 6pm, however may continue past 6pm if we don't complete the pour on time.

## Night work

Night work will be carried out along Victoria Road on Monday 7 September, Tuesday 8 September and Thursday 10 September (contingency night in cases of wet weather or adverse site conditions is Wednesday 9 September) between the hours of 7pm and 6am, weather permitting.

Work will include:

- mobilising/demobilising traffic control setup each night
- **trench excavation** to install new stormwater drainage on Victoria Road, in the median and eastbound lanes between Byrnes St and Callan streets (9th week of 18 weeks work)
- **trench excavation** to install new Ausgrid assets in Victoria Road between Springside and Moodie streets (9th week 11 weeks work)
- backfilling and reinstatement of the trenching area each night

Trench excavation, road sawing and rock hammering are loud activities, and may be required on each of these nights. As a result, night work next week is expected to generate high levels of noise.

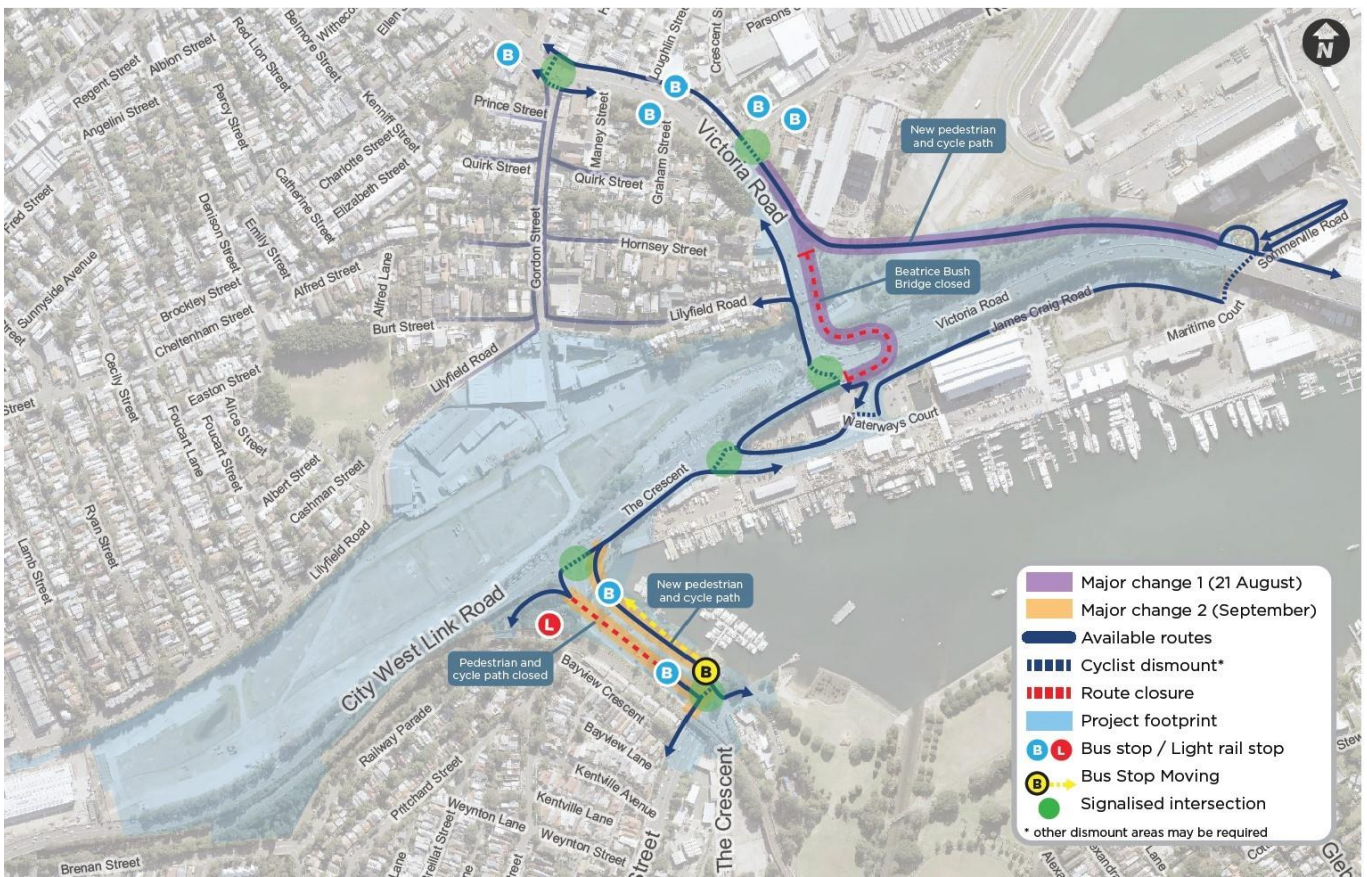

## Key updates

From tomorrow (Thursday 3 September), there will be some changes to pedestrian and cycle paths on The Crescent in Annandale. A new pedestrian and cyclist shared path will open adjacent to the new road closer to Rozelle Bay. At the same time, the pedestrian and cycle shared path on The Crescent (next to the mural) will be closed between the former Buruwan Park and the northbound bus stop.

The changes are shown in the map below. There will be future pedestrian, cyclist and motorist changes in Rozelle and Annandale so we encourage you to watch out for the emails titled 'Important changes to your route'.

### Have you commented on our Urban Design and Landscape Plan?

Our virtual Community Centre for the Urban Design and Landscape Plan (UDLP) gives you access to the full UDLP, an interactive map, the Community Guide, virtual information sessions, make a formal submission and more.

[Click here to enter the virtual Community Centre](#)

The purpose of the UDLP is to provide a plan that outlines how open and green space for the community will be developed after completion of the Rozelle Interchange project. The Rozelle Parklands will provide community facilities such as new walking and cycling paths, and a wetlands with picnic areas, barbecues and playgrounds. This is your chance to help shape the development of one of the largest open areas in the inner city.

## General construction FAQs

For more information on work hours, equipment used, and how we're mitigating impacts on Iron Cove residents please see [this document](#) at <https://bit.ly/2EMwKeA>.

## How to contact us

In line with recent NSW Government health advice regarding COVID-19 and to ensure the safety of the community and staff, we are re-closing the Community Information Centre at 84 Lilyfield Road Rozelle.

For any information you may require, please email us at [info@rozelleinterchange.com.au](mailto:info@rozelleinterchange.com.au) with your enquiry and a contact number for us to call you.

If you want to know more about our work or to make a complaint, please respond to this email or contact the Rozelle Interchange Community Team on 1800 660 248.

Please let us know if you have any suggestions or ideas regarding what you would like to see in this weekly update going forward. We welcome and appreciate your feedback.

Kind regards

Pam and Bec

**The Iron Cove Community Relations Team**
