Air Quality Community Consultative Committee

Meeting 18

2 September 2025

Agenda

Agenda

- Welcome, declarations of interest, actions from previous meeting
- Air quality items raised by community members
- **Updates from the project team:**
 - Overview of air quality complaints since last meeting
 - Update on air quality monitoring since last meeting
 - Operations and maintenance update
- **Other business**

Welcome

Declarations of interest

Actions from previous meeting

Air quality items raised by the community

Project update

1x Quirk St AQM query regarding residential demolition and status of the monitor moving forward
1x Community Enquiry – Support for Student's school assessment

Hi there,

I am aware that my dad has spoken to you today about the assessment I am doing. I'm just looking for as much primary data as I can to include in my report so feel free to add anything.

The research question that I came up with was: *How has the construction of the Rozelle Interchange affected the air quality in Rozelle over the last 10 years?*

Has constructing the Rozelle Interchange affected the air quality in Rozelle for better or for worse?

So I am able to give you a grasp of the information I'm looking for, I've come up with some questions:

- Your name
- Role in working for Rozelle Interchange
- Qualifications
- What the infrastructure of the Rozelle Interchange that affect air quality?
- How does the government ensure Rozelle's air quality meets the legal minimum standards?
- Why was the Rozelle Interchange constructed? Was there any reason to improve air quality in the last 10 years?

If you are unable to answer any of these questions, that's not a problem just let me know. Any further links for more research would be much appreciated.

Thank you so much for your time and willingness to help me out.

Kind regards,

No air quality exceedances have been observed since the last AQCCC.

About WestConnex

WestConnex provides motorists with a continuous, 33km traffic-light free motorway network connections for future projects linking the north shore, Sydney Airport and the southern

WestConnex has been delivered in four major stages:

1. **The M4**, opened in July 2019. The WestConnex M4, including the 5.5km M4 Tunnels, widened M4 motorway and Haberfield.
2. **The M8**, opened in July 2020. The 9km twin tunnels connects the M5 East at Kingsgrove interchange at St Peters.
