

## 5 October 2016

### Installation of bridge barriers and services on the new elevated motorway across the railway line, Granville

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the M4 is being widened between Granville and Homebush from three to four lanes in each direction, alleviating congestion. Visit [westconnex.com.au/M4Widening](http://westconnex.com.au/M4Widening) for more information.

On **Friday, 14 October 2016**, night work will commence to install bridge barriers and services on the new elevated motorway adjacent to Junction Street, Granville. A map showing the location of the work is provided overleaf.

This work is expected to take **four nights** to complete, weather permitting. To ensure the safety of workers and motorists, the work will take place between **11.00 pm and 5.00 am**.

Equipment used during the work will include cranes, elevated work platform, generators and lighting towers.

As some of this work may be noisy, every effort will be made to minimise the impact of work, including using non-tonal reversing beepers on machinery, installing acoustic curtains, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you would like further information about the upcoming work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 Widening team.

Notification Reference: N084

#### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
