WestConnex M4-M5 Link utilities investigations – Rozelle

Dear Resident

Work is underway on WestConnex, which involves widening and extending the M4 motorway, duplicating the M5 motorway and joining the M4 and M5 to create a free-flowing motorway network.

Planning has started for the proposed M4-M5 Link – the third stage of the WestConnex project linking the M4 at Haberfield to the M5 at St Peters via underground tunnels. For more information on the M4-M5 Link, visit westconnex.com.au/M4-M5Link.

Further to our notification of 19 September, utilities investigations will be continuing in Victoria Road, Byrnes Street, Clubb Street, Toelle Street, Callan Street, and Springside Street, Rozelle from **16 to 25 October 2016**, weather permitting. These investigations are progressive and should only take a day or two in each street.

Utilities investigations are an important part of the design phase for the M4-M5 Link. The findings from the investigations will be used to determine the location of existing utilities infrastructure and help design the project.

The majority of the work will be carried out during the day, between **7.00 am and 6.00 pm from Monday to Friday**.

To minimise impacts on traffic, investigations on Victoria Road will be carried out on the following nights:

- **11.00 pm Sunday 16 October to 5.00 am Monday 17 October 2016**
- **11.00 pm Monday 17 October to 5.00 am Tuesday 18 October 2016**
- **11.00 pm Tuesday 18 October to 5.00 am Wednesday 19 October 2016.**

These investigations involve locating and inspecting the existing electricity, gas, telecommunications and sewer infrastructure are not expected to have noise impacts.

Traffic control and signage will be in place; however, access to properties will be maintained.

If access to privately owned land is required, individual property owners will be contacted in advance for their approval.

If you would like further information, please call 1800 660 248 and ask to speak with a member of the M4-M5 Link project team or email info@westconnex.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
