

14 June 2017

## Update – Reinstatement of roads, footpaths, driveways and tree planting, St Peters

Late last year, we installed underground power cabling from St Peters to the New M5 construction site at the corner of Canal Road and Princes Highway. Work is currently under way to reinstate the new cable route to its original condition on local streets in St Peters.

We have now finished replacing sections of road, footpaths and driveways along Mary Street, Bakers Lane, Roberts Lane, Roberts Street, Edith Street, Edith Lane and Silver Street. We've also replanted 38 new trees along Silver Street.

## Night work on the Princes Highway and Unwins Bridge Road

From **Monday 26 June**, reinstatement work will be carried out at night on the Princes Highway and Unwins Bridge Road near Silver Street. The night work will be carried out in stages for up to three weeks, weather permitting. A map showing the night work locations is provided overleaf.

The work will include up to **ten shifts** on the Princes Highway and up to **four shifts** on Unwins Bridge Road. To minimise impacts to residents, no more than four shifts of night work will be carried out in one week with no more than three nights in a row.

Due to high traffic volumes on these roads, work will be carried out between **8pm and 5am from Monday to Saturday**. There will be no work on Sundays or public holidays.

Equipment used during the work will include excavators, concrete-cutting saws, hand tools, lighting towers and construction vehicles. Every effort will be made to minimise impacts associated with this work, including completing noisy works earlier in the night where possible.

## Footpath reinstatement on the Princes Highway

From **Monday 19 June**, work will be carried out to reinstate the footpath on the northern side of the Princes Highway between Edith Street and Silver Street. This work will take up to one week to complete, weather permitting. Working hours are between **7am and 6pm, Monday to Friday** and **8am to 1pm on Saturdays**.

A pedestrian detour will be in place while the work is carried out. The work location and pedestrian detour is provided on the map overleaf.

## Traffic changes

Changed traffic conditions will continue to be in place during this work, including reduced speed limits, lane closures, pedestrian detours and temporary removal of on-street parking. Traffic will be maintained in both directions on both Princes Highway and Unwins Bridge Road. Traffic control and signage will be in place to assist road users, pedestrians and cyclists through the changed conditions.

Pedestrians and motorists will be kept informed of upcoming closures and detours via variable message signage and traffic control personnel located around the work areas. If you are travelling through the area, please allow extra time for your journey and follow the signs and directions from traffic controllers.

If you have any questions about this work, please call toll free 1800 660 248 and ask to speak to a member of the New M5 community engagement team.
