

Parramatta Road East and West civil sites - upcoming night work schedule

Night work will intermittently be undertaken as part of site establishment and demolition activities between the months of January and March 2019. The work will involve installing hoarding along Parramatta Road, investigating and disconnecting power, water and sewer services to the existing buildings within the Parramatta Road civil sites (see the schedule of night work and map overleaf).

What we're doing:

Due to the high volume of traffic during the daytime, some work on Parramatta Road will be scheduled out of hours between **6.00pm - 7.00am Monday to Friday (inclusive)**, to ensure the safety of pedestrians, motorists and workers. In order to provide respite for nearby residents, work will occur for a maximum of two nights in a row at one location, no more than three nights per week and no more than ten nights per calendar month in total.

This notice provides residents with a high-level schedule of upcoming night work. Additional notification will be provided to residents prior to work occurring with specific construction hours of operation and dates.

The work will generally involve:

- Setting up traffic and pedestrian management controls
- Investigating the location of existing services in the existing properties
- Performing temporary outages and disconnecting services to the properties within the site
- Installing hoarding along Parramatta Road from Bland Street to Alt Street (Ashfield side of Parramatta Road)
- Installing a median strip down the middle of Parramatta Road

Equipment required for this work includes, but is not limited to; excavators, saw cutters, jack hammers, hand tools, water carts, scanning wands, vacuum trucks, asphaltting vehicles, vibratory rollers, compactors, generators, lighting towers, elevated work platforms, trucks, traffic control and light vehicles.

When

Between January 2019 and March 2019

Hours of operation

6.00pm - 7.00am Monday to Friday (inclusive). Specific hours to be confirmed closer to the work

Where

Parramatta Road, Haberfield and Ashfield

BUILDING OUR FUTURE

Constructed by

How this affects you

Some of these activities will be noisy. The Project is committed to mitigating construction impacts to surrounding residents by:

- Scheduling high-impact noise activities such as hammering as early as possible
- Using non-tonal reversing beepers and instructing workers to keep noise to a minimum
- Directing temporary lighting away from properties
- Consultation with directly impacted residents ahead of the work taking place

Traffic changes

Temporary changes to traffic and pedestrian routes around the work sites may be required while night work is taking place. Traffic control and signage will be in place to assist motorists, pedestrians and cyclists through these changes.

Schedule of upcoming night work

Activity	Noise impact	January	February	March
Disconnecting services	Medium noise	2 nights	2 nights	
Installing hoarding	Medium noise		4 nights	4 nights
Installing a median strip	Medium noise			10 nights
