M4 Widening　　　　　　　　　　**Notification | October 2016**

20 October 2016

Elevated road beam installation – Granville

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the M4 is being widened between Granville and Homebush from three to four lanes in each direction, alleviating congestion. Visit westconnex.com.au/M4Widening for more information.

Further to the notification on Thursday, 12 May 2016, beams for the new elevated road continue to be installed along the southern side of the M4 Motorway. The current work is from Good Street to Duke Street, Granville. A map of the work area is provided overleaf.

From **Monday, 24 October 2016**, this work on the new elevated road will continue and is expected to take **six weeks** to complete, weather permitting. To ensure the safety of workers and motorists the work will take place between **10:00 pm and 5:00 am**.

Equipment used during the work will include cranes, hand tools, lighting towers, trucks and light vehicles.

As some of this work may be noisy, residents will be updated on the progress of the work as it approaches their property. Every effort will be made to minimise the impact of work, including using non-tonal reversing beepers on machinery, installing acoustic curtains, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you would like further information about the upcoming work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 Widening team.

Notification reference: N089

ABOUT WESTCONNEX
WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
