

Arncliffe

Welcome to our construction update for Arncliffe as part of the WestConnex New M5 project. Updates will be distributed monthly to keep you informed of upcoming activities in your area.

Construction is now underway at the New M5 Arncliffe site. Since July 2016, substantial progress has been made to establish the site, including ground levelling and installing site access roads, buildings and utility services.

Underground power cabling installation is being carried out on local roads in Arncliffe, Banksia and Rockdale to supply power to the Arncliffe construction site and is expected to be completed by the end of the year. Work to permanently restore the surface of footpaths, roads, driveways and replant trees will be undertaken early 2017.

Work underway at the Arncliffe construction site, October 2016

Upcoming activities

Work being carried out in November includes:

- ongoing geotechnical drilling inside the Arncliffe construction site to monitor and assess existing ground conditions
- installing utility connections to the construction site
- further work to install a temporary noise wall along Marsh Street
- ongoing work to develop access roads and car park inside the construction site
- ongoing piling work to prepare for tunnel excavation
- excavating an access tunnel to the New M5 mainline tunnels for spoil removal
- constructing a storage shed for spoil removed during tunnelling work.

Plant and equipment used during these works include trucks, light vehicles, saws and rock hammers, piling rigs, hand tools, lighting towers, cranes, compactors, compressors and pumps. Every effort will be made to minimise the impact of work on nearby residents and businesses.

Community information sessions

Community information sessions are coming up in December. At the sessions you'll be able to meet the project team, find out about upcoming construction activities, ask questions and provide feedback. You can subscribe to receive updates and invitations to New M5 community information sessions and events by visiting the following link:

Work hours

New M5 work will generally be carried out during standard construction hours **between 7am and 6pm Monday to Friday and 8am and 1pm on Saturday**. There will be no work on Sunday or public holidays unless notified otherwise.

In preparation for the commencement of tunnelling, ground excavation within the Arncliffe construction site is currently taking place. Excavation work will shortly commence outside of standard construction hours and will continue for approximately four months. These activities are generally inaudible.

A separate notification will be distributed shortly to nearby residents in advance of this upcoming night work.

Temporary traffic changes

Temporary traffic changes will be required to safely complete some activities, including road and lane closures, footpath closures and detours, reduced speed limits and temporary removal of street parking. Traffic control and signage will be in place to guide motorists, pedestrians and cyclists through any changed traffic conditions.

For more information

If you have any questions about this work, please call toll free **1800 660 248** and ask to speak to a member of the New M5 community engagement team. You can also subscribe to receive email updates at westconnex.com.au/subscribe.
