

Geotechnical investigations - Parramatta Road sites Haberfield/ Ashfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

Preparations are underway to **commence construction work for the M4-M5 Link** - the third stage of the WestConnex project linking the M4 at Haberfield to the M5 at St Peters via underground tunnels.

What we're doing

Geotechnical investigations will be carried out at the Parramatta Road sites (see map overleaf) from **Monday 15 October 2018**. The work is expected to take three weeks to complete, weather permitting.

Work will take place between **7.00am - 6.00pm Monday to Friday and 8.00am - 1.00pm on Saturdays**. The work will involve:

- Mobilising a drill rig that is mounted onto the back of a truck
- Drilling small boreholes into the ground and extracting soil samples
- Testing the extracted soil to determine ground types

Equipment required for this work includes truck mounted drilling equipment, light vehicles and hand tools.

How this affects you

This work is expected to have minimal impact on nearby residents. Every effort will be made to further minimise the impact of work, including using non-tonal reversing beepers on all machinery (where feasible), turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

All work will be conducted within the project site locations shown on the map overleaf. Access to the site will occur using existing driveways on Parramatta Road, Alt Street and Bland Street (south). Access to residential properties will not be impacted and will be maintained at all times.

Keeping you informed

We are committed to keeping you informed and will provide regular information on the M4-M5 Link through direct mail and email notifications, community updates, local papers and face-to-face activities.

You can also contact the WestConnex info line on 1800 660 248, email info@m4-m5linktunnels.com.au or visit westconnex.com.au/M4-M5LinkTunnels for more information.
