

## Service investigations – Parramatta Road, Haberfield and Ashfield

From **Tuesday, 10 October 2017**, the New M4 Project will commence service location and investigation work to help finalise the design for future traffic signage. A map showing the location of the work is provided overleaf.

### Timing and work hours

To ensure the safety of motorists, residents and workers, and to minimise potential impacts on the road network, this work will take place between **9.00 pm and 5.00 am Sunday to Friday**.

This work will take approximately **6 shifts** to complete, and will involve:

- setting up traffic control and establishing a temporary work site
- locating services using a non-destructive digging method (NDD)
- temporarily remediating the affected area prior to permanent restoration by 2019.

Equipment used throughout the work will include vacuum trucks, a concrete saw, compactor plates, trucks, hand tools and lighting equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

Lane closures will be in place on Parramatta Road in the vicinity of the work. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

In an effort to minimise additional impacts experienced as a result of unexpected construction delays, we will be providing residents with weekly email updates about upcoming out-of-hours work in the area. If you would like to receive updates about out-of-hours work near your property, please email our team at [info@m4east.com.au](mailto:info@m4east.com.au) and ask to subscribe to the out-of-hours work mailing list.

Notification reference: N232

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
