

25 January 2016

Dear Resident

Service and utilities work at Cintra Park

Work is continuing to construct the WestConnex Motorway, linking Sydney's west and south-west with the city, airport and port. WestConnex will ease congestion, create jobs and connect communities.

A planning application to extend the M4 Motorway between Homebush and Haberfield is currently being considered by the Department of Planning and Environment.

In preparation for the project works included in the application, a Sydney Water sewer line located in Cintra Park between Parramatta Road and Gipps Street, Concord will need to be relocated. A map of the area is provided overleaf.

This work will involve installing temporary security fencing, clearing and pruning vegetation, excavating soil and constructing the new sewer line. This work is expected to take about four weeks to complete, weather permitting.

To minimise impact on nearby residents, the majority of works will be undertaken during the day. Generally this work will be carried out from **Monday to Friday between 7am and 6pm, and on Saturday between 8am and 1pm, commencing Monday 1 February 2016**, however some work may be done outside of the above hours to ensure the safety of workers and motorists. We will provide you with advance notice if after hours work is required near your property.

Early site investigations indicate the site may contain contaminated materials including asbestos. This is not unexpected given the historical industrial nature of land use in the area. If asbestos is found on the site, the following safety procedures will be implemented to ensure the safety of members of the community and workers:

- Air quality will be continuously monitored.
- Signs, barriers and temporary fencing will surround areas containing asbestos.
- A hygienist will be on site to monitor and control the asbestos removal works.
- Any material containing asbestos will be loaded, transported and disposed of at licensed facilities by specially trained and licensed personnel.

More information on how asbestos removal is managed is available at workcover.nsw.gov.au/health-and-safety/safety-topics-az/asbestos.

If you would like further information about the upcoming work please contact 1300 660 248 or email info@westconnex.com.au.

Yours faithfully

Rebecca Spencer
