

13 July 2016

## Geotechnical investigations - Ashfield

Further to our previous notification on 16 March 2016, geotechnical investigations will commence in the laneway located between Frederick Street and Earle Avenue, Ashfield from **Monday, 18 July 2016**.

The work will be undertaken **between 7.00 am and 6.00 pm from Monday to Friday and 8.00 am to 1.00 pm on Saturday**.

This work will take five days to complete, weather permitting, and will involve:

- identifying underground services and utilities and marking out locations for each borehole
- setting up a safe work area with site specific environmental controls around each site
- ongoing traffic and pedestrian management to ensure the safety of motorists, residents and workers
- collecting borehole soil and rock samples
- restoring work sites to their previous condition.

A temporary worksite with safety fencing will be set up at the location to securely contain the drilling equipment. A map showing location of work is provided overleaf.

Access to properties will be maintained at all times. A temporary closure of the laneway access at Frederick Street is required for the duration of the works. Rear access to the commercial properties will be maintained from the Earle Avenue end of the laneway.

There will be some noise associated with this work, however every effort will be made to keep it to a minimum, including by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you would like to make an enquiry or complaint about the upcoming work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au). Notification reference: N040G

### ABOUT WESTCONNEX

**WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.**
