

19 August 2016

Out of hours temporary power supply work - Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Tuesday, 23 August 2016**, work will continue to complete the temporary power supply to the Northcote construction site. The power supply will support tunnelling activities.

Five temporary work areas will be established near the Northcote Street tunnelling site on Wolseley Street, Wattle Street, Page Avenue and Parramatta Road to facilitate these works. A map of the site and work areas is provided overleaf.

Work will be undertaken over three nights between **Tuesday, 23 August and Friday, 26 August between 8.00 pm and 7.00 am**. Work will include:

- establishing temporary work areas
- feeding the power supply to the construction site
- single westbound lane closure on Parramatta Road between Frederick Street and Earle Avenue
- Wolseley Street will be temporarily closed at the intersection with Parramatta Road.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Pedestrian and property access will be maintained. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

Equipment used during the work will include barricades, lighting, trucks, excavators and heavy machinery such as vibration plates.

Every effort will be made to minimise the impact of noisy work by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification No. N054a

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
