

7 March 2017

Utility work – Homebush

Further to our notification on 3 November 2016, work continues to relocate a number of services in Homebush.

From **Sunday, 12 March 2017**, night work will continue to complete the installation of a new water main. To ensure the safety of workers and motorists, this work will take place between **6.00 pm** and **5.00 am**.

A map showing the work area is provided overleaf. If the work is unable to be completed over this period, it will be rescheduled and you will be notified.

This work is expected to take **two nights to complete**, weather permitting, and will include:

- setting up temporary worksites
- excavation
- connecting a new water main
- backfilling and permanent restoration.

Equipment used during the work will include excavators, trucks, light vehicles, small generators, compactors, and lighting towers.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

Sydney Water will notify you separately should there be any interruptions to your water supply. If you do not hear from Sydney Water, you should assume you will not be impacted.

There will be some noise associated with this work, however, every effort will be made to minimise the impact of work, including by completing road cutting activities before midnight, using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N064h

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
