

23 August 2016

Concord Road Interchange - site preparation night work update

Further to our notification on 21 July, 2016 night work to prepare for the establishment of the Concord Road construction site and realignment of the M4 Motorway will continue **from Sunday, 28 August 2016**.

To ensure the safety of workers and motorists, this work will take place at night **between 9.00 pm and 5.00 am**. A map of the work area and an indicative schedule of night work dates for the next four weeks is provided overleaf.

This work will include:

- installing concrete barriers and line marking on the M4 motorway eastbound carriageway to facilitate temporary widening of M4 eastbound carriageway between Sydney Street and Parramatta Road
- removal of existing noise wall on the M4 eastbound carriageway south of Ada Street, Concord
- geotechnical investigations on Sydney Street, North Strathfield and M4 motorway westbound carriageway including drilling bore holes
- installing new signage in the footpath corridor adjacent to Parramatta Road eastbound and westbound
- setting up a safe work area with site specific environmental controls around each site
- excavating the road and footpath corridor
- restoring work sites to their previous condition
- reducing speed limits and temporarily closing lanes on the M4 Motorway, Parramatta Road, Concord Road, and Sydney Street.

Traffic control and pedestrian management will be in place during the work to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers. Access to properties will be maintained at all times.

Equipment used throughout the work will include cranes, excavators, bobcats, vacuum trucks, concrete trucks, concrete cutters, jackhammers, drill rigs, and lighting towers.

There may be some noise associated with these works, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have a complaint or enquiry about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
