

23 June 2016

Water main relocation – Haberfield

Further to the notification on 25 May 2016, work to prepare the connection points for the new water main will commence from **Monday, 27 June 2016**. A map of the work area is provided overleaf.

To minimise impact on nearby residents, the majority of works will generally be undertaken **between 10.00 am and 2.00 pm from Monday to Friday**.

However, to ensure the safety of workers and motorists, some of this work will take place at night **between 9.00 pm and 5.00 am**. The work will be carried out up to three nights per week, for no more than two consecutive nights.

Work will take about eight weeks to complete, weather permitting, and will include:

- excavating the road in Ramsay Street at the intersection of Dobroyd Parade and Alt Street and the intersection of Waratah Street and Wattle Street
- locating underground services
- installing piles to reinforce the connection point
- pouring of concrete to secure the water pipe in place.

Equipment used during the work will include a concrete saw, concrete trucks, piling rig, lighting equipment, excavator, vibration plate, trucks and vacuum trucks.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Installation of road plates will be required at the end of each shift to allow for traffic access during the day. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

Noise may be experienced during these works, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All work sites will also be restored to their previous condition.

If you have a complaint or enquiry about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au. Notification reference: N072

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
