

15 June 2016

Signage removal – Parramatta Road, Ashfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

On **Monday, 20 June 2016**, night work to remove existing signage at the Parramatta Road construction site will commence.

To ensure the safety of workers and motorists, this work will take place over one night between **10.00 pm and 5.00 am**. A map of the work area is provided overleaf.

The work will involve:

- setting up cranes
- securing and removing the sign.

Equipment used during the work will include cranes, trucks, an elevated work platform, hand tools and lighting equipment.

One westbound lane of Parramatta Road will be closed in the vicinity of the work. Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

Noise may be experienced during this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au. Notification reference: N076

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
