

**16 June 2016**

## **Installation of concrete slab – Wattle Street and Parramatta Road, Haberfield**

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/m4east](http://westconnex.com.au/m4east).

From **Tuesday, 21 June 2016**, night work will commence to install a protective concrete slab at the corner of Parramatta Road and Wattle St, Haberfield. This work is required to protect existing underground services in preparation for water main relocation work in Wattle Street. A map of the work area is provided overleaf.

To ensure the safety of workers and motorists this work will take place at night between **10.00 pm and 5.00 am**.

Work will take three nights to complete, weather permitting, and will include:

- setting up traffic control
- excavating the kerb and footpath
- pouring the concrete slab
- reinstating the footpath and kerb.

Equipment used during the work will include excavators, road saw, concrete trucks, small crane truck, hand tools and lighting equipment. This work may generate intermittent noise.

During the work, one lane will be closed on Wattle Street and Parramatta Road, Haberfield. Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Access to properties will be maintained. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

Noise may be experienced during this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All work sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au). Notification reference: N078

### **ABOUT WESTCONNEX**

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
