

1 July 2016

Vegetation clearing – North Strathfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

Further to our notification on 9 June 2016, site preparation work is continuing along the eastbound and westbound carriageway of the M4 Motorway between the Sydney Street off-ramp and Parramatta Road.

As part of this work, vegetation will be cleared in the area between the M4 Motorway and Queen Street, North Strathfield from **Wednesday, 6 July 2016**. This work will enable the installation of stormwater drainage required for the realignment of the M4 Motorway. A map of the work area is provided overleaf.

The majority of the work will be carried out **between 7.00 am and 6.00 pm from Monday to Friday**, and is expected to take two days to complete, weather permitting. The work will involve:

- establishing a worksite and installing temporary fencing
- removing trees and clearing vegetation
- lane closures on Queen Street, North Strathfield.

Traffic control and pedestrian management will be in place during the work to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

Equipment used throughout the work will include chainsaws, excavators, elevated work platforms, wood chippers, and trucks.

There will be some noise associated with this work, however every effort will be made to keep it to a minimum including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All work sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au. Notification reference: N087

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
