

17 November 2016

Out of hours work - Haberfield

Further to our notifications (N090B and N090C) on 15 September 2016 and 6 October 2016, site preparation and utility work will continue from **Tuesday, 22 November 2016** along Wattle Street, Walker Avenue, Martin Street, Allum Street and Dobroyd Parade, Haberfield. A map showing the work areas is provided overleaf.

To minimise the impact to residents, work has been scheduled to take place between **7.00 am and 6.00 pm Monday to Friday** and **8.00 am and 1.00 pm on Saturday**, where possible.

However, to ensure the safety of workers and motorists, some night work is required. Night work will take place between **9.00 pm and 5.00 am Sunday to Friday**. High noise activities will only be carried out up to three nights per week, but for no more than two consecutive nights at each location.

This work is expected to take **five weeks to complete** and will involve:

- installing traffic barriers and line marking
- clearing and removing vegetation
- utility work including installing and modifying water, sewerage and electrical services
- installing protective concrete slabs
- installing and modifying pavements including associated drainage work
- installing signage and new street lighting
- modifying signalised intersections
- soil stabilisation work at Reg Coady Reserve.

Equipment used during the work will include excavators, vacuum trucks, chainsaws, cranes, trucks, hand tools and lighting equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Access to properties will be maintained. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
