

## 14 September 2016

### Commencement of piling work – Parramatta Road construction site

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

On **Monday, 19 September 2016** piling work will commence at the Parramatta Road construction site. This work is required to provide the vertical foundations for the cut-and-cover structure, east and westbound dive structure and the pedestrian bridge at Bland Street. A map of the work area is provided overleaf.

This work will take place **between 7.00 am and 6.00 pm from Monday to Friday and 8.00 am and 1.00 pm on Saturday** and is expected to take three months to complete.

To minimise the impact of this activity on nearby residents, we will be using the 'bored piling' method. This method involves:

- boring a circular hole in the ground
- installing steel reinforcement; and
- filling the hole with concrete to form a pile.

Equipment used for this work will include pick and carry cranes, piling rigs, slewing cranes, jack hammers, compressors, concrete agitators, trucks, and generators.

This work is not expected to disrupt traffic and access to properties will be maintained at all times.

There will be some noise and vibration associated with this work. Every effort will be made to minimise the impact of work, including by using low-tonal reversing beepers on machinery during night works, turning off equipment and vehicles when not in use, directing noisy equipment away from residences where possible.

To ensure noise and vibration do not exceed compliance levels, monitoring equipment will be used and monitored by a third party.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N115

#### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
