

26 August 2016

Haul road construction – Wattle Street, Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Wednesday, 31 August 2016**, work will commence at Wattle Street, Haberfield to construct a tunnel spoil haulage route within Reg Coady Reserve. The pedestrian footpath on the southern side of Wattle Street (westbound), between Ramsay Street and Dobroyd Parade will be closed until 2019. A map showing the work area is provided overleaf.

To ensure the safety of workers and motorists, work will take place between **9.00 pm and 6.00 am Sunday to Friday, between 1.00pm and 6.00pm Saturday and between 8.00am and 6.00pm Sunday**. The work will be carried out up to three nights per week, but for no more than two consecutive nights at each location.

This work is expected to take around **up to five weeks**, weather permitting and will include the following activities:

- installing traffic barriers
- clearing and removing vegetation
- utility investigation work
- installing water and power services including temporary street lighting
- installing, configuring and modifying signalised intersections
- temporary widening of Wattle Street, including temporary line marking.

Equipment to be used includes excavators, vacuum trucks, concrete saws, concrete coring plant, chainsaws, cranes, trucks, compactors, rollers, asphalt laying plant, hand tools and lighting equipment.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using low-tonal reversing beepers on machinery during night works, turning off equipment and vehicles when not in use, directing noisy equipment away from residences where possible, and undertaking regular noise monitoring to ensure levels are being managed effectively.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N116

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
