

14 September 2016

Acoustic shed construction – Northcote Street construction site

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Monday, 19 September 2016**, work will be undertaken to install cladding on the acoustic shed at the Northcote Street construction site. A map of the work area is provided overleaf.

Due to the proximity to Parramatta Road, to ensure the safety of workers and motorists, the work will be undertaken **between 9.00 pm and 5.00 am Sunday to Friday**. The work will be carried out over six nights but not for more than three consecutive nights or four nights in total per week, and will include:

- temporarily removing the construction site fence along Parramatta Road
- installing insulation and metal panels on acoustic shed
- installation of gutters and downpipes
- using the construction site as a laydown and storage area
- reinstating the construction site fence.

Equipment used for the work will include mobile work platforms (scissor lifts) and cranes, hand tools, lighting towers, traffic control signage and a generator.

During this work, **one lane on Parramatta Road eastbound will be closed** in the vicinity of the work. Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time, observe the reduced speed limit, and follow the direction of traffic controllers and signage.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including the use of non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N128

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
