

**25 January 2017**

## Utility work, Homebush

Further to our notification on 4 November 2016, work continues to relocate a number of services in Homebush.

From **Friday, 3 February 2017** work will commence to decommission an electrical cable on Verley Drive. This work is expected to take two weeks to complete. A map showing the location of the work is provided overleaf.

To minimise impacts on nearby residents, work will generally be undertaken **between 7.00 am and 6.00 pm from Monday to Friday and 8.00 am and 1.00 pm on Saturday**. You will be notified if work is required near your property outside of these hours.

Work will involve:

- using a vacuum truck to locate existing services
- excavating and trenching the road, footpath or verge
- backfilling and temporary reinstatement of the work area. Permanent restoration will follow.

Equipment used throughout the work will include excavation equipment including rock hammers, trucks, compactors, concrete cutters, tippers and light vehicles.

Traffic management and signage will be in place to manage any traffic changes and residential access will be maintained at all times. Please allow extra travel time and follow the signage and the direction of traffic controllers.

There may be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N151a

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
