

15 December 2016

Traffic changes – Underwood Road, Homebush

Further to our notification on 30 September 2016 (N081), the newly installed temporary traffic signals on Underwood Road, south of Short Street East, Homebush will be activated on **Tuesday, 20 December 2016**.

These temporary traffic signals will be in place until the completion of the project in 2019 and are required to safely manage pedestrian movements between the eastern and western sides of Underwood Road and facilitate truck access to the construction site.

A map showing the truck route and traffic signal position is provided overleaf.

The signals will only be activated when a crossing is required and all efforts will be made to minimise the impact on the flow of traffic on Underwood Road

Out-of-hours tunnelling activities

In accordance with the project's Environmental Protection Licence, tunnelling and related activities from the Underwood Road construction site can **occur 24 hours a day, seven days a week**.

From December 2016, delivery trucks will begin to access the site 24 hours a day, seven days a week due to an increase in the amount of concrete required. The frequency and number of deliveries will be determined by tunnelling progress.

Trucks transporting excavated material will continue to access the site during standard construction hours of 7.00 am to 6.00 pm Monday to Friday and 8.00 am to 1.00 pm on Saturday.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N157

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
