

9 February 2017

Utility work – Sydney Street, Concord

Work is underway on WestConnex which involves widening and extending the M4 and M5, and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

In order to complete an electrical connection, night work is required to be undertaken on **Thursday, 16 February 2017**, at the intersection of Sydney Street and Concord Road, Concord. A map showing the work area is provided overleaf.

This work will take place **between 8.00 pm and 5.00 am** to reduce impacts on road users and ensure the safety of workers and motorists. If the work cannot be completed during this period, it will be rescheduled.

The work is expected to take **one night** to complete, weather permitting, and will include:

- Isolating, removing and reconnecting street lighting for Concord road

Equipment used will include:

- A truck-mounted elevated work platform, pole-grab truck, tipper trucks and various hand tools

Traffic management and signage will be in place to manage any traffic changes with residential access maintained at all times. Please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including the use of non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N173

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
