Utility work – Underwood Road, Homebush

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Sunday, 2 April 2017**, night work will commence to complete the relocation of power and gas services on Underwood Road, Homebush. To ensure the safety of workers and motorists, this work will take place between **6.00 pm** and **5.00 am**. High noise activities will only be carried out up to three nights per week, but for no more than two consecutive nights at each location.

A map and calendar showing the work area and scheduled dates of activity is provided overleaf. If the work is unable to be completed over this period, it will be rescheduled and you will be notified.

This work is expected to take **six nights to complete**, weather permitting, and will include:

- setting up temporary worksites
- excavation
- connecting services
- backfilling and permanent restoration.

Equipment used during the work will include excavators, vacuum excavation truck, trucks, light vehicles, small generators, compactors, road saw, and lighting towers.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by completing road cutting activities before midnight, using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N183

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
