

21 April 2017

Utility work – Concord Road, Concord

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Thursday, 27 April 2017** work will be undertaken to locate services on Concord Road, Concord. A map of the work area is provided overleaf.

This work will take place **between 7.00 am and 5.00 pm Monday to Friday and 8am to 1pm Saturdays**.

This work will take up to **two weeks to complete** and will include:

- saw cutting the road
- using a vacuum truck to locate existing services
- excavating and trenching the parking lane
- backfilling and temporary reinstatement of the work area. Permanent restoration will follow.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, by using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

Equipment used during the work will include excavators, trucks, road saws, lighting towers, compactors and light vehicles.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Access to properties will be maintained at all times. Some parking restrictions may be in place during the work.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N198

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
