

19 July 2017

## Power cable installation – Underwood Road, Homebush

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

From **Monday, 24 July 2017**, work will be undertaken to install a power cable on Underwood Road, Homebush. A map of the work area is provided overleaf. This work will be conducted over a five month period with the work front moving along the route as the work progresses.

To ensure the safety of workers and motorists, some this work will take place **between 7.00 pm and 6.00 am from Monday to Sunday**. High noise activities will only be carried out up to three nights per week, but for no more than two consecutive nights at each location. To minimise the impact on residents, work will also occur during the day, where possible, between the hours of **7.00 am and 6.00 pm from Monday to Friday and 8.00 am to 1.00 pm Saturday**.

This work will take **up to six weeks to complete, weather permitting**, and will include:

- tree pruning
- using a vacuum truck to locate existing services
- excavating and trenching the parking lane
- installing power conduit
- backfilling and temporary reinstatement of the work area, with permanent restoration to follow.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by completing road cutting activities during the day shift whenever possible or otherwise before 12.00 am, using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

Equipment used during the work will include excavators, trucks, road saws, lighting towers, compactors and light vehicles.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Access to properties will be maintained at all times. Some parking restrictions will be in place during the work.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N199

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
