

8 August 2017

## Utilities work for road widening – Concord Road, Concord

From **Monday 14 August 2017**, work will commence along Concord Road, north of Patterson street to south of Sydney St (east side), to relocate existing services in preparation for the widening of Concord Road, as part of the Concord Road Interchange. A map showing the location of the work is provided overleaf.

To minimise the impact to residents, work has been scheduled to take place **between 7.00am and 6.00pm Monday to Friday and 8.00am and 1.00pm on Saturday**, where possible. However, to ensure the safety of workers and motorists, night work will be required. Residents will be notified separately when this work is scheduled.

This work will take approximately **4 months** to complete, weather permitting and will involve:

- installing temporary traffic barriers and signage
- demolition of existing fencing, footpaths and pavements
- clearing and removing vegetation
- potholing for investigation and location of existing services
- utilities installation including road crossings
- trenching to install storm water drainage
- installing and modifying pavements for associated drainage work
- temporary remediation work, prior to permanent road work
- road work including kerbing and asphaltting
- traffic signal modifications
- installation of road furniture including kerbs and barriers.

Equipment used during the work will include excavators, vacuum trucks, concrete saws, core drills, chainsaws, cranes, trucks, compactors, small tools, hand tools and lighting equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. A pedestrian detour will be in place along Concord Road, and parking will be restricted on the eastern side of Sydney St (east). Access into the eastern side of **Sydney Street, off Concord Road, will be closed permanently from Monday 21 August 2017**. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work, however, every effort will be made to minimise the impact of work, including using non-tonal reversing beepers on all machinery at night, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification No. N241

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
