

Conduit and pit installations – Queen Street, North Strathfield

Further to notification (N242), from **Monday 11 September 2017** work will continue along Queen Street, North Strathfield to install conduits and pits for the new Parramatta Road signage and CCTV camera network. A map showing the location of the work is provided overleaf.

To minimise the impact to residents, work has been scheduled to take place **between 7.00 am and 6.00 pm Monday to Friday and 8.00 am and 1.00 pm on Saturday**, where possible. Night work may be required due to road access restrictions and to ensure the safety of workers and motorists.. Should night work be required, residents will be notified separately when this work is scheduled.

This work will take approximately **three weeks** to complete, weather and site conditions permitting, and will involve:

- installing temporary traffic barriers and signage
- potholing for investigation and location of existing services
- piling work for large sign structures
- installing service conduits and pits
- temporary remediation work, prior to permanent restoration.

Equipment used during the work will include; 8 Tonne excavator, piling rig, plate compactor, bogie trucks, franna crane, vacuum trucks, concrete saws, light vehicles and small hand tools.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Parking will be restricted in the vicinity of the works, and contra flow traffic arrangements will be in place during this time, with some full road closures to occur. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work and every effort will be made to minimise this by using non-tonal reversing beepers on all machinery at night, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences. All sites will also be restored to their previous condition.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N242a

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
