

## Concrete pour - Parramatta Road Ventilation Facility

Work continues on the construction of the Parramatta Road Ventilation Facility (PRVF), which is located within the Wattle Street Construction Site. A map of the work area is provided overleaf.

Due to the large quantity of concrete required for stabilising this structure, on Friday, 20 April 2018, a concrete pour is required outside of standard construction hours. If work cannot be completed, a contingency pour may be required on Thursday, 26 April 2018.

### What we're doing

This work will involve:

- setting up concrete pumps
- pouring concrete.

Equipment used will include concrete trucks, concrete pumps and hand tools.

The two tower cranes will continue to only be used during standard construction hours of 7.00 am and 6.00 pm.

### How this affects you

There will be noise associated with this work and every effort will be made to minimise this where possible, including turning off equipment and vehicles when not in use, and directing noisy equipment away from residences.

In an effort to minimise additional impacts experienced as a result of unexpected construction delays, we provide residents with weekly email updates about upcoming out-of-hours work in the area. If you would like to receive updates about out-of-hours work near your property, please email our team at [info@m4east.com.au](mailto:info@m4east.com.au) and ask to subscribe to the mailing list.

### When

20 April and 26 April 2018

### Hours of operation

4am to 12am
