From **Wednesday, 13 December 2017** work will continue to construct the permanent noise wall along Wattle Street, Haberfield, which will run along the back of the even-numbered properties on Walker Avenue. A map highlighting the work area is provided overleaf.

The noise wall will be constructed in two phases. Prior to Christmas, the noise wall will be constructed to the height of 3.6 metres of Hebel. The colour of the Hebel panels on the residents' side of the wall has been confirmed as Dulux 'French Limestone'.

The permanent noise wall is expected to be completed by mid-2018.

- painting the noise wall structure on both sides.

Equipment used for this work will include an excavator with an augur piling attachment, a mobile crane and hand tools.
