

5 October 2017

Air Quality Monitoring Station Installation – Allen Street, North Strathfield

The project requires the construction of a number of buildings to support the operation of the motorway, including Air Quality Monitoring (AQM) stations. The AQM stations will be in position for a minimum of three years, one year prior to the project opening and two years post opening.

An Air Quality Monitoring (AQM) station will be constructed in North Strathfield. A map of the work area is provided overleaf.

Timing and work hours

This work is scheduled to commence from **Tuesday 10 October 2017** and is expected to take **up to three months to complete**, weather permitting.

To minimise the impact to residents, work has been scheduled to take place between **7.00 am and 6.00 pm Monday to Friday**.

Work activities include:

- using a vacuum truck to locate existing services
- excavation for Air Quality Monitoring slab and fence posts
- installation of slab, conduits, fence posts & fence
- installation of temporary power supply
- installation and commissioning of air quality monitoring station.

Equipment used during the work will include excavators, trucks, road saws, compactors and light vehicles.

Minimising impact

There will be some noise associated with this work and every effort will be made to minimise this including using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

Traffic changes

Traffic control and pedestrian management will be in place as required to ensure the safety of motorists, residents and workers. Access to properties will be maintained at all times. Some parking restrictions will be in place during the work.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
