

Out of hours construction work – M4 Motorway, Concord.

From **Wednesday, 13 December 2017** work will continue on the substructures which will support the new Concord Road on-ramp bridge connecting Concord Road southbound to the M4 Motorway westbound. During this work, **partial eastbound closures of the M4 Motorway will be required.**

Timing and work hours

This work will take up to **three weeks** to complete, and will occur between **9.30 pm and 5.00 am Sunday to Friday.**

We will re-notify you if we are unable to complete the work during this period or if there are any major changes.

Work activities include:

- adjustment of previously installed girders.

Equipment used will include generators, electric work platforms, trucks and hand tools.

Minimising impact

There will be some noise associated with this work and every effort will be made to minimise this including using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

Traffic changes

During this work, partial eastbound closures of the M4 Motorway will be required at night. Specific information regarding these closures will be communicated via comprehensive Variable Message Signage, local advertising and livetraffic.com.

Traffic control, signage and pedestrian management will be in place during the work to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and the direction of traffic controllers.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification Reference: N290

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
