

VMS Preparation Work - Dalhousie St, Haberfield

From Monday, 30 July 2018 work will commence to prepare for the installation of an electronic variable message sign (VMS) on Dalhousie Street, Haberfield. The sign will provide road users with up-to-date information on traffic conditions and planned and unplanned incidents and events. A map showing the location of the work is provided overleaf.

This work will take up to 1 month to complete. If the work cannot be completed during this time, it will be rescheduled and you will be notified.

What we're doing

Work will involve:

- service locating;
- excavating, piling and pouring the foundations for the VMS structure.

Equipment used during the work will include: concrete saws, vacuum trucks, a franna crane, lighting equipment, excavators, trucks, concrete agitators, a truck mounted piling rig and hand tools.

How this affects you

As a lane closures on Parramatta Road is required to complete the work, this work will be undertaken at night. There will be some noise associated with this work. Every effort will be made to minimise this by turning off equipment and vehicles when not in use and where possible, directing noisy equipment away from residences.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the route, please allow extra travel time and follow the direction of traffic controllers and signage.

To minimise impacts experienced because of unexpected construction delays, we provide residents with weekly email updates about upcoming out-of-hours work in the area. If you would like to receive email updates about of-of-hours

When
