

Underwood Road Ventilation Facility scaffold removal and panel installation, Homebush

From Sunday 23 September 2018, work to remove scaffold and install façade panels on the Underwood Road Ventilation Facility will continue. This work will require night closures of the M4 Motorway eastbound. The work will be conducted over two weeks and stakeholders will be notified as work progresses.

A map showing the location of the work is provided overleaf.

What we're doing

This work will involve:

- scaffold removal
- panel installation

Equipment used during the work will include; a mobile crane, small tools, hand tools (including nylon hammers) and lighting equipment.

How this affects you

Due to removal of scaffold at height and near the M4 work will be conducted at night during closures of the M4 Motorway eastbound. Specific information regarding these closures will be communicated via comprehensive Variable Message Sign (VMS) and livetraffic.com.

There will be some noise associated with this work and every effort will be made to minimise this by using low tonal nylon hammers, completing scaffold demobilisation that is set back from the M4 and at lower levels during the day, non-tonal reversing beepers on all machinery at night, turning off equipment and vehicles when not in use and where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

When

Sun 23 Sep to Sun 7 Oct 2018
