

Pavement works - Concord Road, Concord

Further to notification N369 and as a result of unfavourable weather conditions, the fourth weekend of pavement works on Concord Road has been re-scheduled to occur from Friday, 31 August to Monday, 3 September 2018. These works are to facilitate construction of permanent pavement for the new Concord Interchange. One southbound lane on Concord Road between Alton Street and Sydney Street will be temporarily closed for this weekend.

A map showing the work location, detailed lane closure information and pedestrian detour routes is provided overleaf.

What we're doing

The work will involve:

- installing temporary barriers and signage
- removing existing pavement, including concrete saw cutting and excavation
- installing drainage
- installing new pavement and line marking including concrete saw cutting
- construction of new kerb and guttering

Equipment used will include franna cranes, trucks, plate compactors, rollers, pavers, vacuum trucks, hammers, concrete saws, excavators, lighting towers, generators, trucks, concrete agitators and pumps, line marking trucks and hand tools.

How this affects you

Traffic congestion and delays are expected on Concord Road southbound while the lane closure is in place. Allow extra travel time when driving in the area. Bus stops will remain open and services will operate as normal.

There will be some noise associated with this work. Every effort will be made to minimise this impact including by turning off equipment and vehicles when not in use and directing noisy equipment away from residences where possible.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

When
