

19 August 2015

Dear Resident

Notification of start of work for relocation of Cintra Park hockey field to St Lukes Park

Sydney's population is set to increase by another one million people over the next 10 years. The NSW and Australian Governments are building transport infrastructure now, both public transport and roads, to prepare for this growth.

WestConnex is critical to easing on road congestion. WestConnex will widen and extend the M4 and M5 and join them together to form a continuous free flowing motorway tunnel – improving access to jobs and getting people home sooner.

The M4 East project forms part of Stage 1 WestConnex and will provide tunnels with three lanes in each direction. The M4 East will connect to a widened M4 at Homebush Bay Drive, Homebush and will emerge near the Bunnings Warehouse on Parramatta Road and on Wattle Street at Haberfield.

Cintra Park hockey field, between Parramatta Road and Gipps Street Concord, has been identified as the location of the WestConnex M4 East midway tunnelling point, which will be a construction compound for tunnelling work to be carried out in each direction from the one location.

The location minimises impact on the community by reducing the need to acquire residential property and provides direct access to Parramatta Road for the removal of spoil, ensuring local streets won't be impacted by truck movements.

The relocation of the Cintra Park hockey field has been a key priority for the NSW Government and the community will receive a new hockey field and facilities directly across the road at St Lukes Park, Concord.

The new facilities include a new hockey field, new lighting, amenities building which includes terraced seating for spectators, player facilities and an upgraded car park, as well as two viewing mounds. The work also includes upgrading of other sports fields, with the St Lukes 1 and St Lukes 2 sports fields to be realigned, levelled and returfed.

Work will take place from 24 August to 31 March 2016, between 7am and 6pm, Monday to Friday and between 8am and 1pm Saturday, weather permitting.

The work to enable the relocation of the hockey field will involve site establishment, earthworks, concreting, constructing foundations and footings, landscaping, and installing drainage, irrigation, lighting and utilities at the St Lukes site.

All feasible and reasonable mitigation measures will be taken to minimise disturbance to local residents and businesses. There may be some minor traffic disruptions during working hours and we would ask you to follow the instructions of any traffic controllers or signage around the work area.

A temporary worksite with safety fencing will be set up at the location for the duration of the works.

For more information on these activities please do not hesitate to call 1300 660 248 or email info@westconnex.com.au.

Yours sincerely

Terry Chapman
