

## Out of hours piling work – Wattle Street, Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

From **Friday, 23 June 2017** the M4 East Project will be constructing a pile that will become an integral part of the support structure for the Wattle Street interchange. In order to carry out this work safely, the furthest westbound lane of Wattle Street, Haberfield will be temporarily closed. A map showing the location of the work is provided overleaf.

Due to the timing of road access restrictions, night work has been scheduled to take place over two shifts, between:

- **11.00 pm Friday, 23 June to 8.00 am Saturday, 24 June**
- **11.30 pm Saturday, 24 June to 9.30 am Sunday, 25 June 2017.**

This work will involve:

- mobilising traffic control and placing barriers on Wattle Street
- drilling the hole for the pile
- installing the piling cage and pouring concrete for the pile
- covering the area with steel plates
- removing barriers from Wattle Street and demobilising traffic control.

Equipment used during the work will include an excavator, a franna crane, trucks, concrete agitators, concrete pumps, a piling rig, small tools, hand tools, street sweepers and lighting equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including using non-tonal reversing beepers on all machinery at night, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N217

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
