## M4 Motorway– New construction egress zone, Concord

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/m4east](http://westconnex.com.au/m4east).

From **Monday 3 July 2017** work will be undertaken on the M4 Motorway east and westbound carriageways in order to facilitate a new construction egress zone for vehicles working alongside the Westbound carriageway of the M4 motorway at Concord. This work will be undertaken between **10.00 pm and 5.00 am** in order to reduce impacts on road users and ensure the safety of workers and motorists.

This work is expected to take up to **three nights** to complete, weather permitting and will include:

- Removal of concrete barriers at the current work egress along the westbound carriageway of the M4.
- New egress gate located into the westbound carriageway of the M4.
- Installation of concrete barriers and crash cushion at new egress location.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using low-tonal reversing beepers on machinery during night works, turning off equipment and vehicles when not in use, directing noisy equipment away from residences where possible, and undertaking regular noise monitoring to ensure levels are being managed effectively.

Equipment used will include; 20T franna crane, lighting towers, hammer drill, rattle guns, generator trucks and light vehicles.

During the work, one M4 motorway (westbound) carriageway will be closed between Parramatta Road, Concord and Homebush Bay Drive, Homebush.

Traffic control, signage and pedestrian management will be in place during the work to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and the direction of traffic controllers.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N223

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
