

M4 Widening

June 2015

18 June 2015

Construction work at Silverwater Road westbound and eastbound on and off ramps

The Australian and NSW governments are building WestConnex, a 33 kilometre motorway, linking the M4 and M5 motorways for the first time.

Work is underway for the \$500 million WestConnex M4 Widening. The Rizzani Leighton Joint Venture (RLJV) has been contracted to design and build this section of the WestConnex Motorway.

The M4 Motorway will be widened to four lanes in each direction between Church Street and Homebush Bay Drive. The works also include a new viaduct from Junction Street to Church Street and new access ramps from Hill Road and Homebush Bay Drive onto the M4 Motorway.

From late June, work will start at Silverwater Road westbound and eastbound on and off ramps. This work will include earth and drainage work to realign the road, clearing vegetation, installing environmental controls, removing and installing noise walls and utility investigation work. This work will take approximately twelve weeks to complete, weather permitting.

Some work will need to be carried out through the night between 7pm to 5am, Sunday to Thursday from late June to late July to ensure the safety of road users and workers,. This out of hours work will be undertaken intermittently at various locations and will include removing vegetation, utility investigation work, and removing and installing street lights. The project team will take measures to keep noise to a minimum. Regular noise monitoring will be undertaken to ensure levels are being managed effectively.

Equipment used will include chain saws, wood chippers, excavators, lighting towers, trucks, pothole truck, hammer, rattle guns, angle grinder, wacker packer and road/quick cut saw.

Construction personnel are regularly briefed on measures that will be implemented during night works, and construction activities are closely monitored.

Reduced lane and shoulder widths, night-time lane closures and a 40km/hr reduced speed limit will be required during construction at night.

Your patience and cooperation is appreciated while these important works are underway.

For further information about the works, please visit www.westconnex.com.au, contact the project team on 1300 660 248 (24 hours) or email community.info@rljv.com.au.
