

4 February 2016

Dear Resident

Construction work to remove residential houses

Work is continuing to construct the WestConnex Motorway, linking Sydney's west and south-west with the city, airport and port. This project will ease congestion, create jobs and connect communities.

From **Wednesday 10 February 2016**, three residential houses, located in Onslow and A'Beckett streets in Granville will be removed. Work at the site will be carried out from **Monday to Friday between 7am and 6pm** and on **Saturday between 8am to 1pm**, weather permitting.

This work will include clearing, demolishing and excavating the houses and will take approximately three weeks to complete, weather permitting. This work will also require excavating and removing contaminated building materials, some of which contain asbestos.

Appropriate controls were identified and implemented as part of the project approval, Construction Environmental Management Plan and Workplace Health and Safety Management Plan. Work to remove asbestos will also comply with NSW EPA Waste Guidelines and WorkCover NSW Regulations.

To ensure the safety of the community and workers, the following safety procedures will be implemented:

- Air quality will be continuously monitored.
- Signs, barriers and temporary fencing will surround areas containing asbestos.
- A hygienist will be on site to monitor and control the asbestos removal works.
- A dedicated clean soil track will be established to ensure vehicle wheels are free of contaminated soil before leaving site.
- Any material containing asbestos will be loaded, transported and disposed of at licensed facilities by specially trained and licensed personnel.

More information on asbestos removal is available at www.workcover.nsw.gov.au/health-and-safety/safety-topics-a-z/asbestos.

If you would like further information about the work, please contact the project team on 1300 660 248 (24 hours) or email community.info@rljv.com.au.

Yours sincerely

Mark Stevenson
