

7 September 2015

Dear Resident

M4 Widening construction work westbound road verge west of Fox Street, Holroyd and Woodville Road on ramp

Sydney's population is set to increase by another one million people over the next 10 years. The NSW and Australian Governments are building transport infrastructure now, both public transport and roads, to prepare for this growth.

Work is underway for the \$500 million WestConnex M4 Widening. The Rizzani Leighton Joint Venture has been contracted to design and build this section of the WestConnex Motorway.

From early September, work will continue between Church Street, Parramatta and Pitt Street, Holroyd. Construction will commence on Woodville Road on ramp and on the westbound road verge west of Fox Street, Holroyd. I have provided a map of the work area overleaf.

This work includes tree clearing, removing street lighting and signs, installing temporary lighting and saw cutting of pavement edge. These activities are due for completion in early November 2015, weather permitting.

We aim to complete the majority of work during the day time to ensure minimal impact on surrounding residents. Generally this work will be carried out between **7am and 6pm, Monday to Friday and 8am to 1pm on Saturdays**, weather permitting.

Some work will need to be carried out during the night to ensure the safety of workers and minimise impacts on road users. This night work will be carried out between **6pm to 4:30am, Sunday to Thursday**, and will include tree clearing (including wood chipping), saw cutting and removal of street lights.

Construction personnel are regularly briefed on measures that will be implemented during night works, and construction activities are closely monitored.

Equipment used will include wood chipper, chain saws, lighting towers, light vehicles, semi trailer, small cranes, hand tools, excavators, elevated work platforms, rattle guns and saw cutting equipment.

Some of this work may be noisy. The Rizzani Leighton Joint Venture will take measures to keep noise to a minimum including carrying out the work for no more than three nights in the one location and undertaking regular noise monitoring to ensure levels are being managed effectively.

We apologise for any disruption that may be experienced and aim to have the works completed as quickly as possible. If you would like further information about the work, please contact the project team on 1300 660 248 (24 hours) or email community.info@rljv.com.au.

Your sincerely

Mark Stevenson
Project Director - Rizzani Leighton Joint Venture
