Dear Resident

Community notification of viaduct substructure works from Wentworth Street, Granville to Arthur Street, Granville on the southern side for the WestConnex M4 Widening

Sydney's population is set to increase by another one million people over the next 10 years. The NSW and Australian Governments are building transport infrastructure now, both public transport and roads, to prepare for this growth.

Work is underway for the \$500 million WestConnex M4 Widening. The Rizzani Leighton Joint Venture has been contracted to design and build this section of the WestConnex Motorway.

Work to build the eastern section of the main viaduct from Wentworth Street to Arthur Street, Granville will start on the southern side of M4 Motorway from early November. The work involves minor earthworks, erection of formwork and steel reinforcement followed by concrete pours to the bridge columns and headstocks. This work is expected to take approximately eight weeks to complete, with completion by late December, weather permitting. A map of the work area is provided overleaf.

We will carry out the majority of work during the day time to ensure minimal impact on nearby residents. Generally this work will be carried out between **7am and 6pm, Monday to Friday and 8am to 1pm on Saturdays, weather permitting.**

Some work may need to be carried out during the night to ensure the safety of workers and minimise impacts on road users. This night work will be carried out between **6pm and 4:30am, Sunday to Thursday, weather permitting.**

Construction personnel are regularly briefed on the measures that will be implemented to minimise impacts during night work, and construction activities are closely monitored.

Equipment used will include light vehicles, trucks, excavator, cranes, concrete delivery trucks and concrete pumps.

Some of this work may be noisy and Rizzani Leighton Joint Venture will take measures to keep noise to a minimum. This will include carrying out the work for no more than three nights in the one location and undertaking regular noise monitoring to ensure levels are being managed effectively.

We apologise for any disruptions and aim to have the works completed as quickly as possible.

If you would like further information about the work, please contact the project team on 1300 660 248 (24 hours) or email community.info@rljv.com.au.

Yours sincerely

Mark Stevenson
