

12 May 2016

Dear Resident

Elevated road beam installation – Granville

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the M4 is being widened between Parramatta and Homebush from three to four lanes in each direction, alleviating congestion. For more information, visit westconnex.com.au/M4Widening.

From **Wednesday, 18 May 2016**, beams for the new elevated road will be installed along the southern side of the M4 Motorway, from Good Street to James Ruse Drive, Granville. A map of the work area is provided overleaf.

This work will occur between **9.00 pm and 6.00 am** to reduce impacts on road users and ensure the safety of workers, and is expected to take **ten weeks to complete**, weather permitting.

Several local streets will be closed intermittently at night to install the bridge beams, and a detour via Parramatta Road will be implemented prior to work commencing.

Equipment used during the work will include cranes, hand tools, lighting towers, trucks and light vehicles.

As some of this work may be noisy, residents will be updated on the progress of the work as it approaches their property.

Every effort will be made to keep noise to a minimum including using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and undertaking regular noise monitoring to ensure levels are being managed effectively.

If you would like further information about the upcoming work, please contact toll free 1800 660 248 (24 hours) and ask to speak to a member of the M4 Widening team.

Notification No. 55

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
