

Installation of a permanent variable message sign – Dobroyd Parade, Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

On **Saturday, 6 May 2017** work will commence to install a permanent variable message sign (VMS) on Dobroyd Parade, Haberfield. The sign will provide road users with up-to-date information on traffic conditions and planned and unplanned incidents and events. A map showing the location of the work is provided overleaf.

To ensure the safety of motorists, residents and workers and to minimise potential impacts on the road network, work will be undertaken between **9.00 pm and 5.00 am Sunday to Friday**. Work that is scheduled to take place at a safe distance away from Dobroyd Parade will be undertaken **between 7.00 am and 6.00 pm Monday to Friday** and **8.00 am and 1.00 pm on Saturday**.

The work will take approximately **three months to complete** and will involve:

- tree clearing within the VMS site
- potholing to locate services
- excavating and pouring foundations
- boring to install power and telecommunications cabling between the two drill sites
- installing the VMS post and cantilever sign
- testing the sign.

The approved Traffic and Access Management Plan (TAMP) for this work allows vehicles to access Crane Avenue via Waratah Street and Chelmsford Avenue from Dobroyd Parade (City-West Link).

Equipment used during the work will include a drill rig, jackhammers, road saws, compaction equipment, lighting towers, excavators, rock hammer, concrete trucks, vacuum trucks, tipper trucks, traffic control and light equipment.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. If you travel along the work route, please allow extra travel time and follow the signage and direction of traffic controllers.

There will be some noise and vibration associated with this work during standard construction hours. Every effort will be made to minimise the impact of work, including turning off equipment and vehicles when not in use, and directing noisy equipment away from residences wherever possible.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
