

29 September 2016

Eastbound lane changes – Parramatta Road, Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/m4east.

Parramatta Road lane changes

From **Tuesday, 4 October 2016**, works will commence to close one eastbound lane of Parramatta Road between Bland Street and Rogers Avenue, Haberfield.

This lane closure is required to create space to construct tunnel structures and motorway entry and exit ramps. Two traffic lanes will remain open in this location until project completion in 2019. A map of the work area is provided overleaf.

To reduce impacts on road users and ensure the safety of workers and motorists, the work to facilitate the closure will be carried out between **10.00 pm and 5.00 am, Sunday to Thursday**, weather permitting. High noise activities will only be carried out up to three nights per week, but for no more than two consecutive nights at each location.

The work is expected to take **two weeks** to complete, weather and site conditions permitting, and will include:

- setting up temporary traffic control
- removing existing line markings and marking new lines
- installing signage, temporary fencing and concrete safety barriers.

The equipment required for the work includes concrete cutters, vacuum trucks, mobile cranes, light vehicles and trucks, semi-trailers, lighting towers, hand tools, profilers, rollers, line marking equipment and water blasting machines.

Traffic control, detour signage and pedestrian management will be in place during the work to ensure the safety of motorists, pedestrians and workers. If you travel along this route for work, please allow extra travel time and follow the signage and the direction of traffic controllers.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by using low-tonal reversing beepers on machinery during night works, turning off equipment and vehicles when not in use, directing noisy equipment away from residences where possible, and undertaking regular noise monitoring to ensure levels are being managed effectively.

If you have a complaint or enquiry about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N127

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
